To Whom It May Concern,

Completion of University of Plymouth Degree – Ms Udagedara Hiruni Rasara

Premachandre

SRN - 10898878

I can confirm that the above-named student has successfully completed a higher education degree in BSc (Hons) Computer Science. This programme is taught and delivered by NSBM Green University in Sri Lanka. However, the University of Plymouth validates the final award. Therefore, I can confirm that the above student was awarded a Bachelor of Science Degree with Second Class Honours Upper Division: by the University of Plymouth in July 2025. Furthermore, I can confirm that the medium of instruction for the Programme is in English.

In addition, I can also confirm that the University of Plymouth is the awarding institution for the Degree, which requires completion of 120 NSBM Green University module credits in year 1, followed by 240 University of Plymouth credits in years 2 and 3. The credits gained are shown in the transcripts provided by the respective institution and add up to the 360 credits required in order for a student to be awarded the University of Plymouth degree.

With regards to pass rates for our Honours Degrees I have extracted the following information from our regulations: "If the student's aggregate percentage mark falls within the boundaries of the classifications defined below, s/he is entitled to that award. First Class Honours 70% or above Second-Class Honours, Upper Division 60%-69% Second Class Honours, Lower Division 50%-59% Third Class Honours 40%-49%" Thus meaning, the minimum final aggregate a student can receive in order to pass the programme is 40% and the maximum score a student can receive is 70% and above.

Please see the following link that will take you to our regulations should you require any further information
